Change in the calculation of the duration of the housing and ordinary loans

To make it easier for our members to repay their loans, especially those who entered recently on duty, our Association will henceforth base the determination of the maximum possible duration of a loan on **total** length of service within the organization instead of half the length of service as before.

This change will allow members to take out loans for a longer duration, with a consequent decrease in monthly repayments.

Beginning Tuesday February 2nd, 2010, our Association will occupy an office within the World Meteorological Organization on the 1st and 3rd Tuesdays of every month, between 1.00 p.m. and 3.30 p.m.

We will be located in the premises of the Staff Association on the 1st floor.

The result for CHF deposit accounts will be known in April 2010, after the closing of the financial year.
